Ilorin , Kwara State

Summary

I'm a creative product designer passionate about blending design, tech, and user experience. I excel in user-centered design, 3D modeling, and prototyping. What sets me apart is my commitment to staying updated on design trends and emerging tech. I've collaborated on diverse teams, delivering intuitive solutions. I thrive in creative, innovative environments. Let's create impactful designs together.

Experience

Product Designer

Freelance/Self Employed • Kwara, Nigeria

02/2021 - Present

- Worked independently on design projects for clients, including product ideation, concept development, and prototyping.
- Managed project timelines, budgets, and client communication.
- Created 2D and 3D models and visualizations to present design concepts effectively.
- Maintained technical proficiency on Adobe Creative Suite applications, including Photoshop, Illustrator, InDesign and Acrobat

Creative Designer

T4B WRLDWD. • Kwara, Nigeria

02/2021 - Present

designed fashion collections, analyzed trends, overseer production quality, maintained brand consistency, fostered innovation and collaborated with cross-functional teams. I was responsible for concept creation to presentation and promotion, with a focus on balancing creativity with commercial viability and consumer preferences.

Recent projects

TASKBOT

Freelance product designer

Taskbot is an app designed to help users plan, organize, and track the progress of both personal and team tasks and projects. The app generally helps with task management and enhances productivity.
